Note: In preparing the nomination, States Parties should use this format but delete the explanatory notes.

NOMINATION FORMAT	EXPLANATORY NOTES
<p>1. Identification of the Property</p>	<p>Together with Section 2, this is the most important section in the nomination. It must make clear to the Committee precisely where the property is located and how it is geographically defined. In the case of serial nominations, insert a table that shows the name of the component part, region (if different for different components), coordinates, area and buffer zone. Other fields could also be added (page reference or map number, etc.) that differentiate the several components.</p>
<p>1.a Country (and State Party if different)</p>	
<p>1.b State, Province or Region</p>	
<p>1.c Name of Property</p>	<p>This is the official name of the property that will appear in published material about World Heritage. It should be concise. Do not exceed 200 characters, including spaces and punctuation.</p> <p>In the case of serial nominations (see Paragraphs 137-140 of the <i>Operational Guidelines</i>), give a name for the ensemble (e.g., <i>Baroque Churches of the Philippines</i>). Do not include the name of the components of a serial nomination, which should be included in a table as part of 1.d and 1.f.</p>
<p>1.d Geographical coordinates to the nearest second</p>	<p>In this space provide the latitude and longitude coordinates (to the nearest second) or UTM coordinates (to the nearest 10 metres) of a point at the approximate centre of the nominated property. Do not use other coordinate systems. If in doubt, please consult the Secretariat.</p> <p>In the case of serial nominations, provide a table showing the name of each property, its region (or nearest town as appropriate), and the coordinates of its centre point. Coordinate format examples:</p> <p>N 45° 06' 05" W 15° 37' 56" or UTM Zone 18 Easting: ⁵45670 Northing: ⁴⁵86750</p>

NOMINATION FORMAT	EXPLANATORY NOTES
<p>1.e Maps and plans, showing the boundaries of the nominated property and buffer zone</p>	<p>Annex to the nomination, and list below with scales and dates:</p> <p>(i) An original copy of a topographic map showing the property nominated, at the largest scale available which shows the entire property. The boundaries of the nominated property and buffer zone should be clearly marked. Either on this map, or an accompanying one, there should also be a record of the boundaries of zones of special legal protection from which the property benefits. Multiple maps may be necessary for serial nominations.</p> <p>Maps may be obtained from the addresses shown at the following Web address http://whc.unesco.org/en/mapagencies</p> <p>If topographic maps are not available at the appropriate scale, other maps may be substituted. All maps should be capable of being geo-referenced, with a minimum of three points on opposite sides of the maps with complete sets of coordinates. The maps, untrimmed, should show scale, orientation, projection, datum, property name and date. If possible, maps should be sent rolled and not folded.</p> <p>Geographic Information in digital form is encouraged if possible, suitable for incorporation into a GIS (Geographic Information System). In this case the delineation of the boundaries (nominated property and buffer zone) should be presented in vector form, prepared at the largest scale possible. The State Party is invited to contact the Secretariat for further information concerning this option.</p> <p>(ii) A Location Map showing the location of the property within the State Party,</p> <p>(iii) Plans and specially prepared maps of the property showing individual features are helpful and may also be annexed.</p> <p>To facilitate copying and presentation to the Advisory Bodies and the World Heritage Committee A4 (or “letter”) size reduction and a digital image file of the principal maps should be included in the nomination text if possible.</p> <p>Where no buffer zone is proposed, the nomination must include a statement as to why a buffer zone is not required for the proper conservation of the nominated property.</p>

NOMINATION FORMAT	EXPLANATORY NOTES
<p>1.f Area of nominated property (ha.) and proposed buffer zone (ha.)</p> <p>Area of nominated property: _____ ha</p> <p>Buffer zone _____ ha</p> <p>Total _____ ha</p>	<p>In the case of serial nominations (see Paragraphs 137-140 of the <i>Operational Guidelines</i>), insert a table that shows the name of the component part, region (if different for different components), coordinates, area and buffer zone.</p> <p>The serial nomination table should also be used to show the size of the separate nominated areas and of the buffer zone(s).</p>
<p>2. Description</p>	
<p>2.a Description of Property</p>	<p>This section should begin with a description of the nominated property at the date of nomination. It should refer to all the significant features of the property.</p> <p>In the case of a cultural property this section will include a description of whatever elements make the property culturally significant. It could include a description of any building or buildings and their architectural style, date of construction, materials, etc. This section should also describe important aspects of the setting such as gardens, parks etc. For a rock art site, for example, the description should refer to the rock art as well as the surrounding landscapes. In the case of an historic town or district, it is not necessary to describe each individual building, but important public buildings should be described individually and an account should be given of the planning or layout of the area, its street pattern and so on.</p> <p>In the case of a natural property the account should deal with important physical attributes, geology, habitats, species and population size, and other significant ecological features and processes. Species lists should be provided where practicable, and the presence of threatened or endemic taxa should be highlighted. The extent and methods of exploitation of natural resources should be described.</p> <p>In the case of cultural landscapes, it will be necessary to produce a description under all the matters mentioned above. Special attention should be paid to the interaction of man and nature.</p> <p>The entire nominated property identified in section 1 (Identification of the Property) should be described. In the case of serial nominations (see Paragraphs 137-140 of the <i>Operational Guidelines</i>), each of the component parts should be separately described.</p>
<p>2.b History and Development</p>	<p>Describe how the property has reached its present form and condition and the significant changes that it has undergone, including recent conservation history.</p>

NOMINATION FORMAT	EXPLANATORY NOTES
	<p>This should include some account of construction phases in the case of monuments, sites, buildings or groups of buildings. Where there have been major changes, demolitions or rebuilding since completion they should also be described.</p> <p>In the case of a natural property, the account should cover significant events in history or pre-history that have affected the evolution of the property and give an account of its interaction with humankind. This will include changes in the use of the property and its natural resources for hunting, fishing or agriculture, or changes brought about by climatic change, floods, earthquake or other natural causes.</p> <p>Such information will also be required in the case of cultural landscapes, where all aspects of the history of human activity in the area needs to be covered.</p>
<p>3. Justification for Inscription</p>	<p>This section must make clear why the property is considered to be of "outstanding universal value".</p> <p>The whole of this section of the nomination should be written with careful reference to the criteria for inscription found in Paragraph 75 of the <i>Operational Guidelines</i>. It should not include detailed descriptive material about the property or its management, which are addressed in other sections, but should concentrate on why the property is important.</p>
<p>3.a Criteria under which inscription is proposed (and justification for inscription under these criteria)</p>	<p>See Paragraph 77 of the <i>Operational Guidelines</i>.</p> <p>Provide a separate justification for each criterion cited.</p> <p>State briefly how the property meets those criteria under which it has been nominated (where necessary, make reference to the "description" and "comparative analysis" sections below, but do not duplicate the text of these sections.).</p>
<p>3.b Proposed Statement of Outstanding Universal Value</p>	<p>Based on the criteria used above, the proposed Statement of Outstanding Universal Value should make clear why the property is considered to merit inscription on the World Heritage List (see Paragraphs 154-157 of the <i>Operational Guidelines</i>). It may be a unique survival of a particular building form or habitat or designed town. It may be a particularly fine or early or rich survival and it may bear witness to a vanished culture, way of life or eco-system. It may comprise assemblages of threatened endemic species, exceptional eco-systems, outstanding landscapes or other natural phenomena.</p>
<p>3.c Comparative analysis (including state of conservation of similar properties)</p>	<p>The property should be compared to similar properties, whether on the World Heritage List or not. The comparison should outline the similarities the nominated property has with other properties and the reasons that make the nominated property stand out. The comparative</p>

	analysis should aim to explain the importance of the nominated property both in its national and international context (see Paragraph 132)
3.d Integrity and/or Authenticity	<p>The statement of integrity and/or authenticity should demonstrate that the property fulfils the conditions of integrity and/or authenticity set out in Section II.D of the <i>Operational Guidelines</i>, which describe these conditions in greater detail.</p> <p>In the case of a cultural property it should also record whether repairs have been carried out using materials and methods traditional to the culture, in conformity with the Nara Document (1995) (see Annex 4).</p> <p>In the case of natural properties it should record any intrusions from exotic species of fauna or flora and any human activities that could compromise the integrity of the property.</p>
4. State of Conservation and factors affecting the Property	
4.a Present state of conservation	<p>The information presented in this section constitutes the base-line data necessary to monitor the state of conservation of the nominated property in the future. Information should be provided in this section on the physical condition of the property, any threats to the property and conservation measures at the property (see Paragraph 132)</p> <p>For example, in a historic town or area, buildings, monuments or other structures needing major or minor repair works, should be indicated as well as the scale and duration of any recent or forthcoming major repair projects.</p> <p>In the case of a natural property, data on species trends or the integrity of eco-systems should be provided. This is important because the nomination will be used in future years for purposes of comparison to trace changes in the condition of the property.</p> <p>For the indicators and statistical benchmarks used to monitor the state of conservation of the property see section 6 below.</p>
4.b Factors affecting the property	<p>This section should provide information on all the factors which are likely to affect or threaten a property. It should also describe any difficulties that may be encountered in addressing such problems. Not all the factors suggested in this section are appropriate for all properties. They are indicative and are intended to assist the State Party to identify the factors that are relevant to each specific property.</p>
